

README – TRAINING RACES, CAMPS, ETC

In this section is the schedule for training/series races and a listing of other events. The "Other Events" section is for those parents and friends who like to ride their bikes but do not race. We cannot list every "other" event between Maine and Virginia, but whatever comes our way we will list.

November 2, 2006: Just received information on "A Luxury Cycling Training Week in Girona, Spain. Check it out. You have a chance to win a week training in Spain.

May 13, 2005: As of this date, the only training race series in Connecticut is in Bethel, in western Connecticut, so if you racers living east of Hartford are looking for a weekly training series, you might consider either Wednesdays at Lincoln, RI (north of Providence), or Thursdays at Ninigret State Park in Charlestown, RI, east of Westerly, RI. Both are good training races, but are quite different in course structure.
